THE AERONAUTICAL RESEARCH COUNCIL
(Numbers 1251 - 1300)

and placed on sale by H.M. Stationery Office

C.P. No.	Council No.	Title	Author(s)
1251	34 097	The effect of leading edge geometry on high-speed stalling. (May 1972).	Moss, G.F., Haines, A.B. and Jordan, R.
1252	33 876	A suggestion for improving flap effectiveness by heat addition. (January 1972).	Martin, J.
1253	33 869	A technique for measuring oscillatory aerodynamic control surface hinge - moments from fixed response characteristics. (October 1971).	Gaukroger, D.L., Drane, D.A. and Gray, R.
1254	33 887	An omni-directional velocity vector probe suitable for use in gas turbine combustors; design development and preliminary tests in a model combustor. (October 1971).	Macfarlane, J.J.
1255	33 898	Rotating stall and casing wall boundary layers in an axial flow compressor. Communicated by Prof. Horlock. (July 1972).	Lakhwani, C.
1256	34 318	A theoretical investigation of supersonic jets in subsonic flow fields. (September 1972).	Young, C.
1257	34 169	A study of the effect on the wake of the main aerofoil of a Fowler-Flap Configuration on the lift of the flap. (April 1972).	Ashill, P.R.
1258	34 436	The nature, development and effect of the viscous flow around an aerofoil with high-lift devices. (December 1972).	Foster, D.N., Ashill, P.R. and Williams, B.R.

C.P. No.	Council No.	Title	Author(s)
1259	34 195	Fatigue endurance, crack sensitivity and nucleation characteristics of structural elements in four aluminium-copper alloys. (May 1972).	Kiddle, F.E.
1260	34 612	A two-dimensional mathematical model of a parachute in steady descent. (February 1973).	Hume, R.G.
1261	30 657	NPL 9615 and NACA 0012 - A comparison of aerodynamic data. (November 1968).	Gregory, N. and Wilby, P.G.
1262	31 687	Aerodynamic characteristics of NPL 9626 and NPL 9627, further aerofoils designed for helicopter rotor use. (November 1969).	Wilby, P.G., Gregory, N. and Quincey, V.G.
1263	33 723	The design of a series of warped slender wings for subsonic speeds. (August 1971).	Davies, Patricia J.
1264	33 950	On the influence of camber and non-planar vortex wake on wing characteristics in ground effect. (October 1971).	Maskew, B.
1265	34 503	The calculation of compressible turbulent boundary layers with fluid injection. (April 1973).	Squire, L.C. and Verma, V.K.
1266	34 280	Afterbody drag measurement at transonic speeds on a series of turn and single jet afterbodies terminating at the jet exit. (February 1973).	Pozniak, O.M. and Haines, A.B.
1267	34 236	A calculation method for the two-dimensional turbulent flow over a slotted flap. (June 1972).	Irwin, H.P.A.H.
1268	34 388	A calculation method for the turbulent boundary layer on an infinite yawed wing in compressible, adiabatic flow. (September 1972).	Smith, P.D.
1269	34 455	The external drag of fuselage side intakes: rectangular intakes with compression surfaces vertical. (October 1972).	Dobson, M.D.

C.P. No.	Council No.	Title	Author
1270	34 296	Asymmetric wing loads on a Canberra aircraft during flight in turbulence. (August 1972).	Thompson, J.P.
1271	32 284	A parametric study of the use of nose blunting to reduce the supersonic wave drag of forebodies. (August 1970).	Pugh, P.G. and Ward, L.C.
1272	34 274	The influence of a single application of heat on fatigue crack propagation in DTD 5070A (RR58) aluminium alloy sheet. (May 1972).	Kiddle, F.E.
1273	34 303	Civil Aircraft Airworthiness Data Recording Programme. A study of normal operational landing performance on subsonic civil jet aircraft. (May 1972). <i>RAC TR 72097</i>	Hutton, G.B.
1274	34 531	The development of rapid-testing techniques for flutter experiments. (April 1973).	Newman, K.W., Skingle, C.W. and Gaukroger, D.R.
1275	34 362	Development of a model technique for investigating the performance of soft-ground arresters for aircraft. (November 1971).	Barnes, J.R.
1276	34 609	Fatigue tests on plain specimens of titanium 6A1-4V under variable amplitude loading. (February 1973).	Cardrick, A.W. and Penett, B.H.E.
1277	34 617	Numerical studies on hypersonic delta wings with detached shock waves. (June 1973).	Shanbhag, V.V.
1278	34 179	Human engineering studies of high speed pedestrian conveyors. (June 1972).	Browning, A.C.
1279	33 252	Comparison between dynamic stability boundaries for NPL 9615 and NACA 0012 aerofoils pitching about the quarter-chord. (August 1971).	Moore, A.W., Lambourne, N.C. and Woodgate, L.
1280	34 260	High subsonic flow past a steady two-dimensional aerofoil. (January 1973).	Nixon, D. and Hancock, G.J.

C.P. No.	Council No.	Title	Author(s)
1281	34 510	Gust loads on 707 and VC 10 aircraft. (August 1972).	Kaynes, I.W.
1282	34 586	Free-stream turbulence effects on the turbulent boundary layer. (June 1973).	Evans, R.L.
1283	33 227	Results of a series of wind-tunnel tests on the Victor B.MK2 aircraft and a comparison with drag estimates and full scale flight data. (October 1971).	Simper, J.I.
1284	34 605	Application of a variational method in plane compressible flow calculation. (December 1972).	Rasmussen, H. and Heys, N.
1285	34 259	A two-dimensional aerofoil oscillating at low frequencies in high subsonic flow. Communicated by Prof. G.J. Hancock. (January 1973).	Nixon, D.
1286	34 641	Some predictions of crack propagation under combined cabin pressurisation and acoustic loadings. (January 1973).	Kirkby, W.T.
1287	34 499	Civil Aircraft Airworthiness Data Recording Programme. Uneven runways encountered by subsonic jet transport aircraft during scheduled airline operations. (May 1972).	Hutton, G.B.
1288	34 836	An aeroelastic model helicopter rotor. (February 1973).	Cansdale, R.
1289	34 764	Study of solid state remote control techniques as applied to the redesign of the electrical system in a large civil aircraft. (December 1972).	Jones, L.V.C.
1290	34 161	A shock capturing method for calculating supersonic flow fields. (December 1972).	Walkden, F. and Caine, P.
1291	34 333	Measurement of the internal performance of a rectangular air intake mounted on a fuselage at Mach numbers from 1.6 to 2. Part IV. (June 1972).	Brown, C.S. and Goldsmith, E.L.

C.P. No.	Council No.	Title	Author(s)
1292	31 312	Some results of wind-tunnel tests on an aerofoil section (NPL 9510) combining a 'peaky' upper-surface pressure distribution with rear loading. (July 1969).	Hall, D.J., Quincey, V.G. and Lock, R.C.
1293	34 085	Low-speed wind-tunnel tests on the lift-dependent drag of delta wings with conical camber. (June 1972).	Kirkpatrick, D.L.I. and Butterworth, P.J.
1294	34 951	SLR temperature measurements in the supersonic expansion of nitrogen in a shocktunnel. (December 1973).	Lewis, Michael J. and Bernstein, Leonard
1295	34 849	A prediction method for pressure distributions on compression surfaces of conical bodies at supersonic speeds. (March 1973).	Larcombe, M.J.
1296	34 273	Non-linear stability theory of the flat plate boundary layer. (February 1973).	Corner, D., Barry, M.D.J. and Ross, M.A.S.
1297	34 723	The variability of fatigue damage from flight to flight. (February 1973).	Bullen, N.I.
1298	34 852	Flight determination of the rudder power and directional stability of the Fairey Delta 2 aircraft using a wingtip parachute. (February 1973).	Ingle, G.
1299	35 005	Flight simulation of a Wessex helicopter - a validation exercise. (May 1973).	Wilcock, T.
1300		List of Current Papers published for the Aeronautical Research Council Nos.1251 - 1299.
