published for

THE AERONAUTICAL RESEARCH COUNCIL
(Numbers 1201 - 1250)

and placed on sale by H.M. Stationery Office

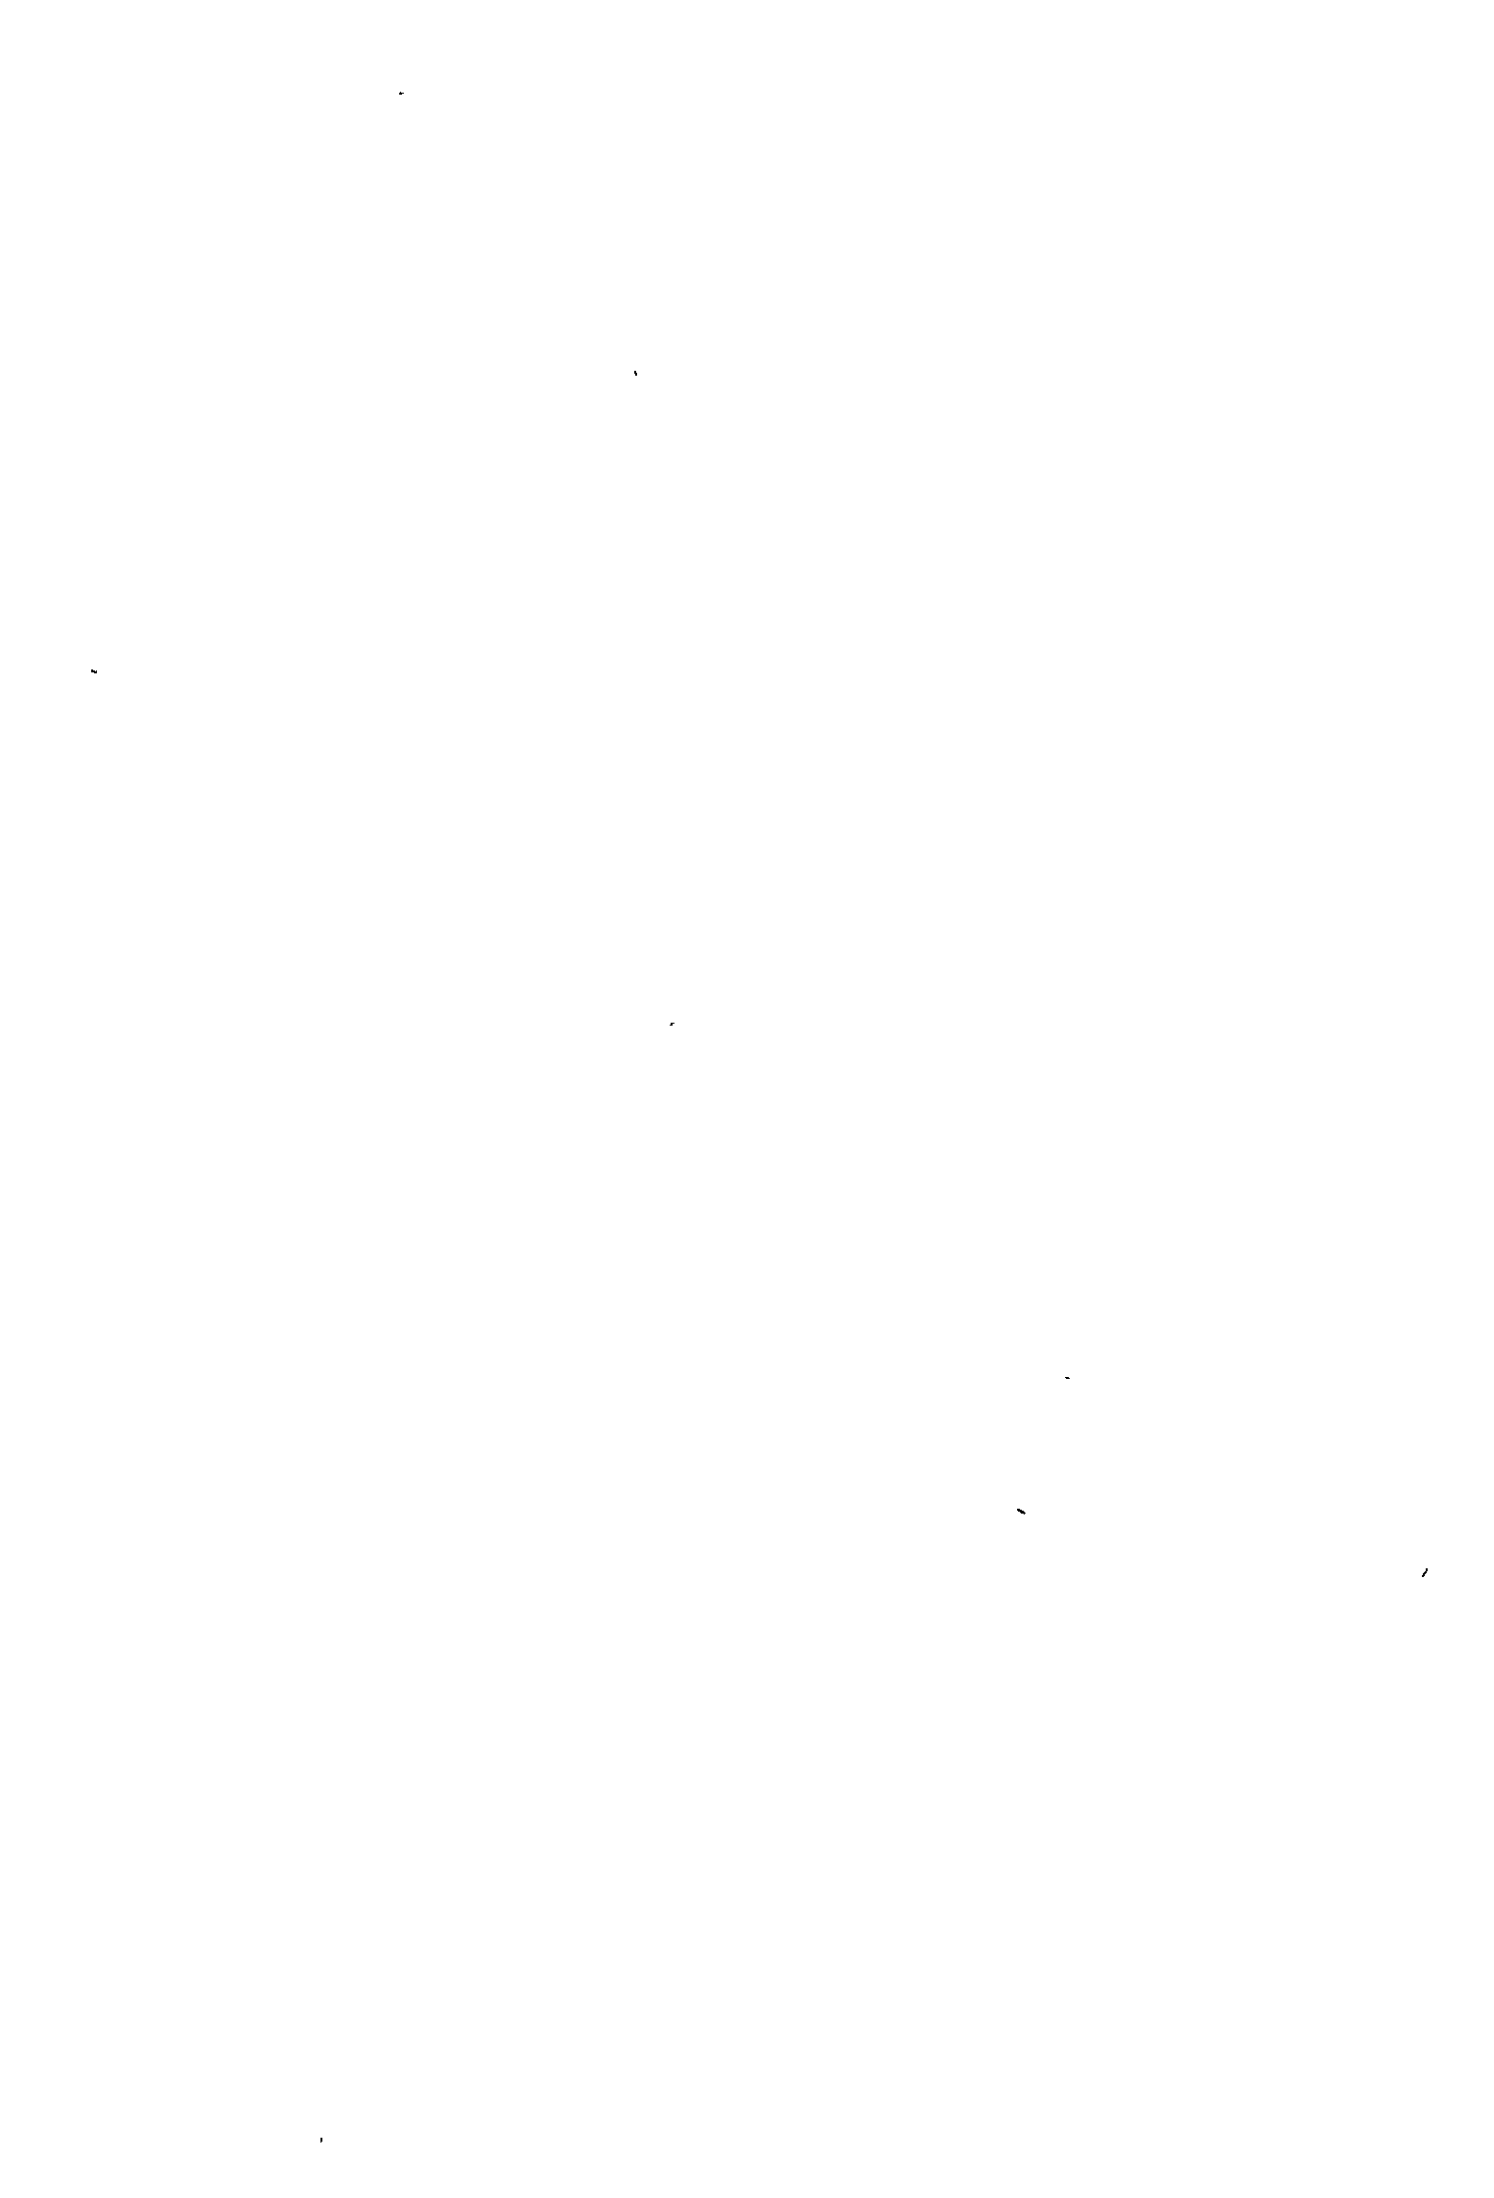

C.P. No.	Council No.	Title	Author(s)
1201	31 421	Vibrational equilibrium calculations of properties behind reflected shock waves with tables for CO ₂ and N ₂ O. (September, 1969).	Hine, R. J.
1202	31 726	The dynamic behaviour of crash helmets. (August, 1969).	Rayne, J. M.
1203	32 372	The unsteady response of an axial flow compressor with a distorted inlet flow. (October, 1970).	Mokelke, H.
1204	32 702	Some measurements of base pressure fluctuations at subsonic and supersonic speeds. (August, 1970).	Mabey, D. G.
1205	33 470	A comparison between two methods of analysis of oscillatory pressure measurements, one method requiring the use of a tape recorder. (September, 1971).	Moore, A. W. and Welsh, B. I.
1206	33 108	A method of improving aircraft ground performance in slush and wet conditions. (July, 1971).	Barrett, R. V.
1207	32 661	Exploratory tests on a forward-mounted overwing engine installation. (August, 1970).	Kettle, D. J., Kurn, A. G. and Bagley, J. A.
1208	33 171	Boundary-layer pressure fluctuations at high Reynolds numbers on a free-flight test vehicle. (March, 1971).	Roberts, D. R.
1209	32 962	Spontaneous ignition of Avtur vapour in various oxygen-nitrogen mixtures. (January, 1971).	Cansdale, J. T.

C.P. No.	Council No.	Title	Author(s)
1210	32 961	A laboratory comparison of three methods of personal conditioning. (March, 1970). (February, 1971).	Allan, J. R.
1211	32 988	Notes on the internal drag, lift and pitching moment of a ducted body. (February, 1971).	Britton, J. W. and Dobson, M. D.
1212	33 376	Heat transfer and surface pressure measurements on two conical wings in free flight up to $M_{\infty} = 4.5$. (April, 1971).	Greenwood, G. H.
1213	33 547	Some modifications to the calculation method for wings with part-span extending-chord flaps given in RAE Technical Report 69034. (September, 1971).	McKie, J.
1214	33 611	A comparison of the surface-source solution with an exact solution for the two-dimensional inviscid flow about a slotted-flap aerofoil. (January, 1972).	Williams, B. R.
1215	32 220	An investigation of transition fixing technique for a 10.5% thick, 28° sweptback wing at high subsonic speeds and $R \approx 3 \times 10^6$. (July, 1970).	Hutton, P. G.
1216	32 346	Fortran programmes for axisymmetric potential flow around closed and semi-infinite bodies. (March, 1970).	Albone, C. M.
1217	33 665	A computer program to calculate the pressure distribution on an annular aerofoil. (September, 1971).	Young, C.
1218	33 106	An examination of an iterative procedure for determining the characteristic exponents of linear differential equations with periodic coefficients. (May, 1971).	Woodcock, D. L., Elton, D. and Davies, R. J.
1219	31 767	The design of high sensitivity pressure transducers for use in shock-tunnels. (September, 1969).	Goodchild, R. O. and Bernstein, L.

C.P. No.	Council No.	Title	Author(s)
1220	31 190	Andover C.Mk1 airfield criteria trials. (December, 1968).	Howell, J.
1221	33 733	The effect of an application of heat on the fatigue performance under random loading of a notched specimen of DTD 5014(RR58) material. (October, 1971).	Heath-Smith, J. R. and Aplin, Judy E.
1222	33 614	Optimum engine thrust deflection for high-speed cruising aircraft. (June, 1971).	Pike, J.
1223	33 734	Fortran subroutines for finite element analysis. (August, 1971).	Merrifield, B. C.
1224	33 462	Dynamic calibration of gas flowmeters. (March, 1971).	Maslen, K. R.
1225	33 097	Some experiences with "on-line" spectral analysis using a small digital computer. (March, 1971).	Roberts, J. R. and Surry, D. Appendix by Johnson, R. F.
1226	33 543	Transonic fan noise. (March, 1972).	Hawkings, D.
1227	33 206	The longitudinal stability characteristics of an Ogee wing of slenderness Ratio = 0.35. (May, 1971).	Hepworth, A. G.
1228	33 828	A result concerning the supersonic flow below a plane delta wing. (April, 1972).	Roe, P. L.
1229	33 853	Design development of an aircraft strut in carbon fibre reinforced plastic. (February, 1972).	Collings, T. A.
1230	33 464	Aerodynamic data for the BAC 221 up to a Mach number of 0.955 as measured in windtunnel tests. (December, 1970).	Holford, Dorothy M.
1231	33 169	Low speed pull-up manoeuvres for a slender wing transport aircraft with stability and control augmentation. (October, 1970).	Holford, Dorothy M.

C.P. No.	Council No.	Title	Author(s)
1232	33 456	A review of windtunnel tests on circulation-control devices for aircraft control. (July, 1971).	Maccabee, F. G., Hilton, B. R. and Marsh, J. I.
1233	33 663	The measurement and analysis of the profile drag of a wing with a slotted flap. (August, 1971).	Moir, I. R. M., Foster, D. N. and Holt, D. R.
1234	33 727	The off-design analysis of flow in axial compressors. (March, 1971).	Daneshyar, H. and Shaalán, M. R. A.
1235	34 018	Some aerodynamic considerations of the flight characteristics of towing systems using long towlines at high speeds. (July, 1968).	Pierce, D. and Beecham, L. J.
1236	33 086	Plane turbulent jet flow in a favourable pressure gradient. (March, 1971).	Riley, M. J.
1237	32 117	On the effects of viscous interaction for a flat delta wing at incidence. (May, 1970).	Davies, L.
1238	33 215	Decay of trailing vortices. (October, 1971).	Oon, E. H. Communicated by Flower, J. W.
1239	33 776	Measurements of temperature and pressure behind the incident and reflected shocks in a shock tube. (March, 1972).	Lewis, Michael J. and Bernstein, Leonard
1240	33 832	On the calibration of pressure transducers for use in shock-tunnels. (May, 1972).	Goodchild, R. O. and Bernstein, L.
1241	33 854	The calculated growth of lift and moment on a swept wing entering a discrete vertical gust at subsonic speeds. (January, 1972).	Garner, H. C.
1242	33 891	Measurement of the internal performance of a rectangular air intake having variable geometry compression surfaces at Mach numbers from 1.7 to 2.5. Part II - The effect of incidence. (December, 1971).	Brown, C. S. and Goldsmith, E. L.

C.P. No.	Council No.	Title	Author(s)
1243	33 681	Measurement of the internal performance of a rectangular air intake with variable geometry at Mach numbers from 1.7 to 2.5. Part I. (August, 1971).	Brown, C. S. and Goldsmith, E. L.
1244	33 862	Comparative turbulence for a Canberra and a Vulcan flying together at low altitude. (May, 1971).	Curran, J. K.
1245	33 750	Similarity requirements for aeroelastic models of helicopter rotors. (January, 1972).	Hunt, G. K.
1246	34 284	Some examples of the application of methods for the prediction of boundary-layer transition of sheared wings. (June, 1972).	Treadgold, D. A. and Beasley, J. A.
1247	33 682	Gust loads on Comet aircraft. (August, 1971).	Kaynes, I. W.
1248	33 976	On the nature of large clear air gusts near storm tops, (February, 1972).	Burns, Anne
1249	34 019	Wind tunnel force measurements on a 1/20 scale model of Black Arrow at Mach numbers of 1.2, 1.5 and 2.0. (March, 1972).	Hall, J. R.
