Published Reports and Memoranda of the
Aeronautical Research Council

Reports and Memoranda No 3850
January 1980

This paper lists one hundred titles which have been published in the R&M Series of the Aeronautical Research Council.

The Council number is included for the purpose of record only.

The R&M Series is published and placed on sale by HM Stationery Office.

R&M No	Council No	Title	Author(s)
3751	34 383	Computation of the velocity field induced by a planar source distribution approximating a symmetrical non-lifting wing in subsonic flow. September 1972.	Ledger, J A
3752	34 766	Notes on the approximate solution of lifting-surface theory used in the RAE standard method. February 1973.	Weber, J
3753	34 703	Longitudinal motions of aircraft involving high angles of attack. January 1973.	Thomas, H H B M Collingbourne, J
3754	35 018	The effect of compressibility on unstalled torsional flutter. August 1973.	Whitehead, D S
3755	35 091	Tests on probes designed to measure stagnation pressure directly in a supersonic stream. July 1973.	Mundell, A R G
3756	34 954	Some unseparated base flows with heat addition. May 1973.	Broadbent, E G
3757	34 160	A form of the supersonic flow equations for an ideal gas. December 1972.	Walkden, F
3758	34 689 34 707	On the application of subsonic linearized wing theory to second order forces and moments. Part I. General principles and mathematical models. Part II. Edge forces and roll-rate derivatives. February 1973.	Hancock, G J Garner, H C
3759	34 469	Second-order small-perturbation theory for finite wings in incompressible flow. August 1972.	Weber, J

R&M No	Council No	Title	Author(s)
3760	35 352	A lifting surface theory method for treating swept or slender wings in attached subsonic flow. December 1973	Kellaway, W Hewitt, B L
3761	-	Author Index to Reports and Memoranda and Current Papers of the Aeronautical Research Council (March 1958 to August 1974).	-
3762	35 388	A new probe for the direct measurement of stagnation pressure in supersonic flow. March 1974.	Goodyer, M J
3763	33 080 33 515	Measurements in low speed flow of unsteady pressure distributions on a rectangular wing with an oscillating control surface. October 1970.	Drane, D A
3764	35 185	Non-linear dynamic motion characteristics of a series of missile configurations from simulated flight behaviour at Mach numbers of 1.6 and 2.0. September 1973.	Tichener, I M
3765	35 211	A technique for analysing the results of a flutter calculation. October 1973.	Baldock, J C A
3766	35 099	The effect of damping factor on the behaviour of flow calculations in turbomachines. Part I. The mechanism of damping factor. Part II. Meridional flow calculations. Part III. Blade-to-blade flow calculations. February 1974.	Bosman, C Hill, M J Bosman, C Bosman, C Deshpande, R B Hill, M J
3767	33 963	Calculations of the steady conical flow past a yawed slender delta wing with leading-edge separation. October 1972.	Pullin, D I
3768	35 269	Measurements of the three-dimensional incompressible turbulent boundary layer induced on the surface of a slender delta wing by the leading-edge vortex. August 1973.	East, L F
3769	35 554	The application of a surface flow-visualisation technique in flight. February 1974.	Bisgood, P L
3770	35 489	The refraction of sound by a shear layer made up of discrete vortices. January 1974.	Dowling, Ann P
3771	35 575	The effect of temperature on subsonic jet noise. May 1974,	Cocking, B J
3772	35 030	An anthropometric survey of 2000 Royal Air Force aircrew 1970/1971. June 1973.	Bolton, C B Kenwood, M Simpson, R E Turner, G M

R&M No	Council No	Title	Author(s)
3773	35 084	An anthropometric survey of 500 Royal Air Force aircrew heads 1972. August 1973.	Hobbs, Fl Lt P C
3774	35 666	Specimen size rolls for aircrew headgear based on an analysis of the head measurements of 2000 Royal Air Force aircrew. May 1974	Simpson, R E
3775	35 567	A time marching method for two- and three-dimensional blade to blade flows. January 1975.	Denton, J D
3776	33 724 33 600 34 183	Prologue to the presentation of the mathematical foundation for an integrated approach to the dynamical problems of deformable aircraft. June 1971.	Taylor, A S Woodcock, D L
3777	33 886	An introduction to helicopter air resonance. September 1972.	Bramwell, A R S
3778	35 835	Secondary flow in cascades - the effect of compressibility. January 1975.	Marsh, H
3779	35 483	Compressible turbulent boundary layers with combined air injection and pressure gradient. August 1974.	Thomas, G D
3780	35 398	Compressible turbulent boundary layers with discontinuous air transpiration: An experimental and theoretical investigation. June 1974.	Marriott, P G
3781	35 588	Interference problems on wing-fuselage combinations in inviscid, incompressible flow. May 1974.	Weber, J Gaynor Joyce, M
3782	35 647	On the elastic moduli of unidirectional fibre reinforced composites. July 1974.	Mansfield, E H
3783	35 831	Evaluation of pressure distributions on thin wings with distorted control surfaces oscillating harmonically in linearised, compressible subsonic flow. Part I. Details of the mathematical techniques used in the evaluation of pressure distributions, and a set of the numerical results including comparisons with experiment. January 1975.	Marchbank, W R
3784	36 113	Experimental studies of the boundary layer on a flat plate at Mach numbers from 2.5 to 4.5. September 1974.	Mabey, D G
3785	36 059	Some series-expansion solutions for slender wings with leading-edge separation. January 1975	Clark, R W Smith, J H B Thompson, C W

R&M No	Council No	Title	Author(s)
3786	34 959 35 354	Iterative method for thick cambered wings in subcritical flow. March 1974.	Sells, C C L
3787	35 316	Calculation of the laminar boundary layer and prediction of transition on a sheared wing. October 1973.	Beasley, J A
3788	34 052	Application of Head's entrainment method to the prediction of turbulent boundary layers and wakes in compressible flow. April 1972.	Green, J E
3789	36 374	Fan supersonic flutter: Prediction and test analysis. October 1975.	Halliwell, D G
3790	35 901	The behaviour of a conical vortex sheet on a slender wing near the leading edge. October 1974.	Clapworthy, G J Mangler, K W
3791	34 458	Prediction of turbulent boundary layers and wakes in compressible flow by a lag-entrainment method. January 1973.	Green, J E Weeks, D J Brooman, J W F
3792	35 289	Comparative performance measurements of two helicopter blade profiles in hovering flight. February 1974.	Riley, M J Brotherhood, P
3793	35 953	A numerical investigation of the thickening of a shock wave on passing through turbulence. November 1974.	Beasley, J A
3794	36 304	The numerical calculation of steady inviscid supercritical flow past ellipsoids without circulation. August 1975.	Duck, P W
3795	36 235	The numerical calculation of subcritical steady flow around an unyawed ellipsoid. May 1975.	Duck, P W
3796	36 239	Stress analysis of fibre reinforced plates with polar orthotropy. May 1975.	Mansfield, E H
3797	36 202	Experience with a steady-state heat transfer technique in a large wind tunnel. April 1975.	Winter, K G Gaudet, L Gell, T G
3798	36 724	Effects of heat on fatigue in aircraft structures. December 1975.	Heath-Smith, J R Kiddle, F E
3799	36 800	A differential microphone for in-duct acoustic measurements. June 1976.	Riley, C M E
3800	36 252	Calculations of the effects of blowing from the leading edges of a cambered delta wing. September 1975.	Barsby, J E

R&M No	Council No	Title	Author(s)
3801	36 825	Low-speed wind-tunnel tests of the longitudinal stability characteristics of some swept-wing quiet airbus configurations. March 1976.	Kirby, D A Hepworth, A G
3802	36 933	A gust tunnel facility. June 1976.	Patel, M H Hancock, G J
3803	36 353	Head and neck mobility of pilots measured at the eye. December 1974.	Champion, Sq Ldr M C Port, W G A
3804	36 914	Theoretical determination of subsonic oscillatory airforce coefficients. May 1976.	Davies, D E
3805	34 400	Vortex breakdown - Some observations in flight on the HP115 aircraft. September 1971.	Fennell, L J
3806	36 716	Measurements of control-surface oscillatory derivatives on a sweptback tapered model wing in two transonic tunnels. March 1976.	Lambourne, N C Wright, K C Welsh, B L
3807	37 016	A 2D partially-parabolic procedure for axial-flow turbomachinery cascades. October 1976.	Singhal, A K Spalding, D Brian
3808	36 355	A pyramid skewed axis sensor set for multiplex flight control systems. July 1975.	Kimberley, D
3809	37 053	Flight measurements of the effects of simulated leading edge erosion on helicopter blade stall, torsional loads and performance. March 1976.	Brotherhood, P Brown, D W
3810	37 188	A parametric computation of flows and performance of the rotating radial impellers. February 1977.	Majumdar, A K Spalding, D Brian
3811	37 198	Linearized supersonic unsteady flow in cascades. February 1977.	Nagashima, T Whitehead, D S
3812	37 080	A flight investigation of the spanwise lift requirements of a helicopter rotor blade. September 1976.	Riley, M J
3813	37 077	Cascades with arbitrary end wall contraction. December 1976.	Galappattti, R Hawthorne, W R
3814	36 863	Non-conical flow past slender wings with leading-edge vortex sheets. March 1976.	Clark, R W
3815	37 224	Simplified three-dimensional analysis and design of fibre reinforced annular discs surrounding a circular hole in a flat plate under various loading conditions. November 1976.	Mansfield, E H

R&M No	Council No	Title	Author(s)
3816	37 230	Strength and elastic response of symmetric angle-ply carbon fibre reinforced plastics. July 1976.	Snell, M B
3817	37 369	Fatigue acceleration in box beams under mechanical and thermal stress (Second Series). July 1976.	Keates, F E Kiddle, F E Mousley, R F Gunn, D
3818	37 297	Analysis of the zero-lift wave drag measured on delta wings. June 1976.	Weber, J King, C
3819	37 409	On the evaluation of wall interference in two-dimensional ventilated wind tunnels by subsonic linear theory. September 1976.	Catherall, D
3820	36 262 36 198	Aerodynamic data for three supercritical aerofoils. RAE(NPL)9515 and RAE 9550. Parts I and II, November 1974 and July 1975.	Fulker, J L
3821	37 395	Boundary layer transition measurements on the AEDC 10° cone in three RAE wind tunnels and their implications. June 1976.	Mabey, D G
3822	37 438	Prediction of crack growth in damage-tolerant design - A basic parametric study. February 1977.	Pike, Vera J Kirkby, W T
3823	37 537	Weight optimisation with flutter constraints. August 1977.	Niblett, Ll T
3824	37 442	The development of a parametric method of measuring fin fatigue loads based on flight measurements on a Lightning Mk T5. December 1976.	Burns, Anne Thompson, J P Wells, E W
3825	37 524	An experimental investigation into the influence of acoustic disturbances on the development of a turbulent boundary layer. March 1977.	Weeks, D J Hodges, J
3826	36 785	Jet noise radiation from discrete vortices. March 1976.	Broadbent, E G
3827	37 556 37 523	Part I: Further low-speed wind-tunnel tests on cambered wings of Mild Gothic planform and aspect ratio 1.4. Part II: Transonic wind-tunnel tests on a cambered wing of Mild Gothic planform. February 1977.	Butterworth, P J Lee, P
3828	37 680	An extension to the method of Garabedian and Korn for the calculation of transonic flow past an aerofoil to include the effects of a boundary layer and wake. July 1977.	Collyer, M R

R&M No	Council No	Title	Author(s)
3829	37 359	Vortex shedding mechanisms in relation to tip clearance flows and losses in axial fans. May 1977.	Lewis, R I Yeung, E H C
3830	37 794	The aerodynamic noise of a slot in an aerofoil. August 1977.	Howe, M S
3831	37 436	The use of sound absorbing walls to reduce dynamic interference in wind tunnels. November 1976.	Mabey, D G
3832	37 871	The identification of the flutter mechanism from a large-order flutter calculation. February 1978.	Baldock, J C A
3833	37 619	On interfacing structural information and loading data in aeroelastic analyses. May 1977.	Holford, Dorothy M Copley, J C
3834	37 840	Fatigue behaviour of pin-loaded lugs in BS 2L65 aluminium alloy. November 1977.	Moon, J E Edwards, P R
3835	37 872	Fatigue behaviour of BS 2L65 aluminium alloy pin-loaded lugs with interference-fit bushes. November 1977.	Moon, J E
3836	37 708	The application of a parametric method of fatigue load measurement to wings - based on flight measurements on a Lightning Mk T5. November 1977.	Burns, Anne Thompson, J P King, G E
3837	37 618	The reduction of dynamic interference by sound-absorbing walls in the RAE 3 ft wind tunnel. August 1977.	Mabey, D G
3838	37 294	A digital computer program for the subsonic flow past turbomachine blades using a matrix method. November 1976.	Calvert, W J Smith, D J L
3839	37 863	The boundary layer development downstream of a shock interaction at an expansion corner. August 1978.	Chew, Y T Squire, L C
3840	37 998	Expansions in series of Chebyshev polynomials of a function occurring in linear unsteady aerodynamic theory. July 1977.	Davies, D E
3841	37 974	The resonance frequencies of ventilated wind tunnels. April 1978.	Mabey, D G

R&M No	Council No	Title	Author(s)
3842	37 486 37 815	An investigation of scale effects on the transonic flow over swept wings. Part I: Measurements on a model of a transport-aircraft configuration. November 1976. Part II: Measurements on a model of a variable-sweep strike-fighter configuration. December 1977.	Weeks, D J Hodges, J
3843	38 052 38 053	A method of performance prediction for centrifugal compressors. Part I: Analysis. Part II: Comparison with experiment. September 1978.	Herbert, M V
3844	37 889	A long stroke isentropic free piston hypersonic wind tunnel. August 1978.	East, R A Qasrawi, A M S
3845	37 279 37 281	Jet interference on supercritical wings. Part I: Experiments on a two-dimensional wing. Part II: Experiments on a swept wing. January 1977.	Kurn, A G Bagley, J A
3846	38 204	The design of axisymmetric cowls for podded nacelles for high by-pass ratio turbofan engines. May 1979.	Langley, M J
3847	37 724	Wind tunnel measurement of lateral aerodynamic derivatives using a new oscillatory rig, with results and comparisons for the Gnat aircraft. October 1977.	O'Leary, C O
3848	38 234	The flying qualities of aircraft with actively augmented pitch and yaw stability. February 1979.	Pinsker, W J G
3849	37 355	Measurements of pressure distributions and pressure drags at zero incidence on both blunt and sharp axisymmetric forebodies at a Mach number of 3. November 1976.	Ward, L C
